## 目录

1	Traffic Issues	1
2	IMRAD Structure	2

Lecture 7	04.07
-----------	-------

## 1 Traffic Issues

There're some usual issues that will be seen in any city:

- motobike too noisy
- narrow way
- cars too many
- traffic lights
- subway too busy
- slow buses
- ...

**Notation.** What has the residents said:

- 3, traffic jams at peak time: 80%
- 1, too many cars: 75%
- 4, not enough car parks: 70%
- 5, too much noise: 60%
- 8, on-street parking: 45%
- 7, unreliable bus service: 40%

**Question.** How would you solve the transport problems of Beauciel?

**Solve.** 1. For too many cars: Set time limits for cars with different characterise on the road

## Lecture 8

05.12

# 2 IMRAD Structure

- I: Intro
- M: Methodology
- R: Results
- D: Discussion
